

See Me!

Chorus: See the sun in the sky
See the river flowing by
See the bird in the tree ... see me!

The sun is the best sun it can be
The river flows perfectly down to the sea
The bird is a bird that no other can be
And I am the perfect me
The sun is unique – it's our only sun
There's no other river just like this one
Each bird sings its song a little differently
And I am the only me

Look at the sun; it shines so bright
The river flows with all of its might
The bird sings from its heart the whole day long
And I sing my own special song
The sun gives light so all can see
The river brings life-giving energy
The bird spreads joy as it sings in the tree
And I give the gift of me

Without the sun the world would be dark
Without the river the land would be parched
Without the bird one less song there would be
And Life wouldn't be complete without me
The sun is meant to shine so bright
The river's meant to flow with all of its might
The bird's meant to sing as loud as can be
And I'm meant to be just me
