

## We Can Get Along Just Fine

Every day, in every way  
 We can make our lives much better  
 We've got everything we need if we only take the lead  
 We can all get along together

We don't need to fight 'cause we're all of us all right  
 Even if we're not like one another  
 We can all of us share, we can all of us care  
 We can all of us help each other

So take my advice, it's better to be nice  
 Than to argue, fight and fume  
 Just sing this little song and try to get along  
 And the world will be much better soon

Hands are for holding, not hitting  
 Arms are for hugging, not pushing  
 Feet are for dancing, not kicking  
 We can get along just fine

Games are for playing, not competing  
 Words are for helping, not hurting  
 Love is for giving, not keeping  
 We can get along just fine

Being different is for fun, not fearing  
 Faces are for smiling, not frowning  
 Life is for caring and sharing  
 We can get along just fine

Repeat last 3 verses twice

(Oh yes!) We can get along just fine  
 (We can do it!) We can get along just fine  
 (There's nothing to it!) We can get along just fine  
 Just fine!
