

It's All about Me, It's All about You

Some eyes are green, some eyes are blue
 Some eyes are brown or black in hue
 But it's okay to be different, too
It's all about me, it's all about you
 However you look, that's all right, too
It's all about me, it's all about you

Some folk are short, some folk are tall
 Some folk are big or rather small
 Whatever the size that's okay, too
It's all about me, it's all about you
 Whatever you are, that's right for you
It's all about me, it's all about you

Some folk can whistle, some folk can sing
 Or write, or paint, or some other thing
 We've all got something we can do
It's all about me, it's all about you
 Whatever your talent, that's right for you
It's all about me, it's all about you

Some folk are quick, some folk are slow
 Some folk just go at the pace they go
 Whatever the speed that's okay, too
It's all about me, it's all about you
 However you go that's right for you
It's all about me, it's all about you

Some skin is black, some skin is white
 Or red, or yellow, or brown's all right
 Whatever your colour that's okay, too
It's all about me, it's all about you
 Whoever you are that's right for you
It's all about me, it's all about you

Don't look at me and wish that you
 Could do the things that I can do
 If you're like me, then who's like you?
It's all about me, it's all about you
 However you are that's right for you
It's all about me, it's all about you

For a wonderful world we need a million views
 A million shapes and colours, too
 All you have to do is just be *you*
It's all about me, it's all about you
 For a perfect world, all we need to do
 Is just be me and just be you
 'Cause whoever you are that's right for you
It's all about me, it's all about you
It's all about me, it's all about you
It's all about me, it's all ... about you
