Every day, and in every way, I'm getting better and better and better  
Every day, and in every way, I'm getting better and better and better  
Every day, and in every way, my rich good is coming my way  
Every day, and in every way, I'm getting better and better and better  
Every day, and in every way, I'm getting better and better and better  
Every day, and in every way, my rich good is coming my way  
Every day, and in every way, I'm getting better and better and better

Every day, and in every way, I'm getting richer and richer and richer  
Every day what do I see? My increased prosperity

Every day, and in every way, I'm getting younger and younger and younger  
I look in the mirror and what do I see? Youth and beauty smiling at me

Every day, and in every way, I'm getting stronger and stronger and stronger  
When I have problems, big or small, I can rise above them all

Every day, and in every way, I'm getting brighter and brighter and brighter  
I'm glad and alive; I'm bright and free. No one's got it better than me

Every day, and in every way, I'm getting better and better and better  
Every day, and in every way, my rich good is coming my way
